GROVESTEE & CO.,
PIANO-FORTE MANUFACTURERS,
 499 BROADWAY, NEW YORK.

The attention of the public and the trade is invited to our NEW SCALE SEVEN OCTAVE ROSEWOOD PIANO-FORTES, which for volume and purity of tone are unrivalled by any hitherto offered in this market. They contain all the modern improvements, French, grand action, harp pedal, iron frame, over-strung bass, etc., and each instrument being made under the personal supervision of Mr. J. H. GROVESTEE, who has had a practical experience of over thirty years in their manufacture, is fully warranted in every particular.

THE "GROVESTEE PIANO-FORTE" received the highest award of merit over all others at the Celebrated World's Fair, where were exhibited instruments from the best makers in London, Paris, Germany, Philadelphia, Baltimore, Boston and New York; and also at the American Institute for five successive years, the gold and silver medals from both of which can be seen at our warerooms.

By the introduction of improvements we make a still more perfect Piano-Forte, and by manufacturing largely, with a strictly cash system, are enabled to offer these instruments at a price which will preclude all competition.

TERMS—Net Cash, in Current Funds. Descriptive Circulars sent free.

GREAT SOUL IN A SMALL BODY.

MATHUSHEK PIANOS.

By a recent invention of Mr. Frederick Mathushek (THE NEW PATENT EQUALIZING SCALE WITH LINEAR BRIDGE), the power of the Piano is so greatly increased that an instrument of little more than HALF THE USUAL SIZE, AND LESS THAN ONE-THIRD THE WEIGHT, is in tone, volume, brilliancy, and all other respects, equal to that of the best full-sized Pianos. This is demonstrated in the COLIBRI PIANO, four feet nine inches long, two feet eight inches wide, yet having seven full octaves. THE ORCHESTRAL PIANO, (ordinary size), by the same arrangement equals a Concert Grand. THE PARLOR GRAND, Harp Form, and THE CONCERT GRAND, possess qualities hitherto unattained in instruments of this class. The peculiar construction secures the greatest durability and longest continuance "in tune."

Musicians, amateurs, and those desiring to purchase, are invited to call and examine. Send for Illustrated Circular, showing the features of the invention, and the reasons for its excellence.
